

Specifications for Crawl or Gable Mounted Solar Fan Model #SET15AV

Materials of Construction - Fan	
Fan Dimensions	Housing: 14" diameter x 8.5" deep Mounting Holes: 15.5" O.C. and 16.25" O.C. Sliding "L" Bracket Travel depth: 0" to 6.75" relative to front of fan.
Motor	38 volt DC motor with replaceable brushes.
Fan Blade	Engineered for maximum airflow.
Ventilating Capacity	1,900 Square Feet.
Finish	Metal components are steel finished with zinc alloy G-90 thickness, hot dipped. Painted metal components are powder coated: pure polyester coating 3 - 5 mils thickness.

Materials of Construction - Solar Panel	
Solar Panel	Photovoltaic panel with high transmission tempered glass encapsulating 35 poly-crystalline solar cells. Manufactured to ISO 9001 standards.
Wiring	30 feet, 20 gauge wire.
Warranty	20 years housing, 20 years panel, and 5 years motor.
Mounting Options	Includes wall mounting brackets, optional fascia mounting brackets also available.
